

Seattle Tuberculosis Research Advancement Center

# TB Hack Day

**December 13, 2023, 9am to 3pm (Pacific Time)**

**UW SLU F106/F107 and zoom**

**Goal:** Collaborating in small groups to develop new analytical insights from 4 published bulk and single-cell RNAseq datasets that profile NHP host gene expression during Mtb infection and BCG vaccination.

**Datasets:** PMIDs: [37097292](#), [35483355](#), [37267955](#), [37390827](#)

**Program:** Short talks to introduce datasets, workshop tutorials on analysis techniques, and open-ended hack time to plan and execute analyses.

**Breakfast** included starting **8:30am**, **lunch** included at **noon**, **happy hour snacks** included starting **3pm**.

**Registration:**
